

TANDEM

Global Logistics

Moving Forward Through Global Collaboration

Tandem Global Logistics is a comprehensive international network of independent logistics operators - serving the worldwide trading market under a common image and strategy - who have been working together for over 20 years.

This forwarding network has a presence in major industrial centers the world over:

- More than 75 countries
- More than 200 offices
- The network is constantly expanding

Tandem Global Logistics has an in-depth knowledge of the global supply chain in air and sea freight and constantly focuses on meeting changing customer demands by broadening its global services into a powerful and interactive network. The network operates independently from sea freight and air freight carriers under its own House Bill of Lading which is accepted worldwide. The network structure is built on long-term commitment and maintains the policy of:

- Quality
- Cost-efficiency
- Reliability
- Flexibility

Operations are performed under a close personal relationship with customers who appreciate the dual advantage of worldwide coverage together with a local market knowledge that each partner provides. This makes **Tandem Global Logistics** the supply chain service provider of choice for numerous leading industries across the globe.

OCEAN FREIGHT

The **Tandem Global Logistics** specializes in the global ocean transport of full container loads (FCL) and less than container loads (LCL). Customs clearance and through transport solutions are also standard services provided.

The network also provides specialized services like:

- Door to Door services
- Project Logistics
- Multimodal transport
- Break Bulk cargoes

Tandem Global Logistics aims to strategically align with relevant shippers' needs and all partners do their utmost to select the solutions which best satisfy the specific transport needs of a particular shipment.

An important tool that is offered is the **Tandem Global Logistics** Tracking and Tracing system which enables customers to have complete follow up and control of their shipments.

AIRFREIGHT

The **Tandem Global Logistics** Network partners are IATA licensed agents which translates into a worldwide airfreight provider for customers.

At most international airports all over the world, the network provides services that target fast transport and efficient airport handling. The pick-up and delivery of cargo and customs clearance are just two of the many added value services offered.

Airfreight services provided by the network include:

- Direct and Express airfreight
- Consol deferred services
- Combined Sea/Air service
- Charter flights when necessary

An important tool that is offered is the **Tandem Global Logistics** Tracking and Tracing system which enables customers to have complete follow-up and control of their shipments.

LOGISTICS

At main industrial and distribution centers **Tandem Global Logistics** can provide warehousing and distribution services, either locally or regionally, so that customers can concentrate on buying and selling activities. Outsourcing of logistics operations has proven to be the best option for most trading companies, allowing them to move from fixed to variable costs.

The network can evaluate the customer's needs and build a customized logistics program to match the actual requirements of the specific chain of supply management. This will include, but is not limited to:

- Control and coordination of suppliers
- Buyers consolidation
- Stocks control
- Platform & Distribution Services
- Bonded and sufferance warehouses
- Other added-value services

CUSTOMS

All the services provided by **Tandem Global Logistics** are complemented by professional customs clearance services.

Customs Clearance is a sensitive issue that can only be performed by high level and licensed professionals who have a complete knowledge and understanding of each country's specific customs regulations, tariffs and trade regulations.

The seamless integration between different partners and their specific transportation and customs divisions of the network allows a truly all-inclusive service unparalleled in the industry.

Tandem Global Logistics also provides customers with additional services such as:

- Certifications and Legalizations
- Cargo and marine insurance
- Licenses and permits application
